

## Declaration of Compliance Food Contact Regulations

To whom it may concern,

on behalf of Donaldson CZECH REPUBLIC s.r.o. we are pleased to provide the following information concerning the below referenced product:

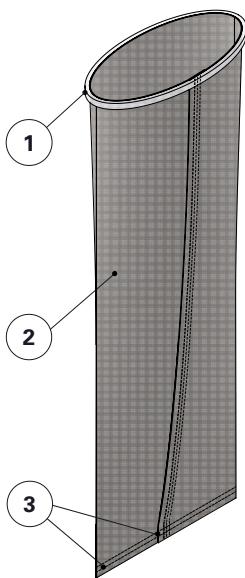

For detailed info regarding:

- Item Number
- Quantity
- Batch Number
- Production Date
- Item Description

see the sticker on the right.

The filter bags consist of the 3 components:

1. Food Grade Compliant Cuff
2. Food Grade Compliant Media
3. Food Grade Compliant Thread

Validity: 2 years (when kept not open in original plastic foil bag in RT condition)

This declaration is valid for the product(s) listed above and delivered by Donaldson Company.

In some cases, Donaldson relied upon information provided by suppliers, and has not independently verified such information.

Based upon migration tests performed at a 3rd party independent laboratories and/or certification received from component suppliers, Donaldson hereby confirms that the component materials of listed above components (therefore a full bag as well) meet the referenced requirements for Food Contact use as detailed in the following EU regulations:

**REGULATION (EC) No 1935/2004** OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27th October 2004 on materials and articles intended to come in to contact with food.

**COMMISSION REGULATION (EU) No 10/2011** of 14th January 2011 on plastic materials and articles intended to come in to contact with food, and it's subsequent amendment.

**COMMISSION REGULATION (EC) No 2023/2006** of 22nd December 2006 on good manufacturing practice for materials and articles intended to come in to contact with food.

**Suggested conditions of use:**

- The filter media is suitable for use in dedusting filters for dry (including fat-containing) foods and food additives.
- The continuous operating temperature may not exceed 135°C.
- Originally packed product(s) should be stored in a room temperature dry environment condition.
- The filter media is for applications where coincidental contact is expected. The migration values were determined at a surface to volume ratio of 6 dm<sup>2</sup>/kg.

**Further information:**

The filter media has no functional barrier.

The filter media contains no dual use substances.

Nota Bene:

Many factors beyond Donaldson's control can affect the use and performance of Donaldson products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the Donaldson products to ensure that these products and components are suitable for use in their specific food application, especially in case of applications where food contact conditions deviate from those stated in the applicable regulations or the manufacturer's instructions and operations manual.
