

# Declaration of Compliance To Food Contact Regulations

Date of Declaration: 21/01/2025

To whom it may concern,  
on behalf of Donaldson CZECH REPUBLIC s.r.o., we are pleased to provide the following information concerning the below referenced product(s) based on the **Dura-Life** media:

Product Name	Part Number (s)
BAG DALAMATIC DURA-LIFE (FOOD GRADE COMPLIANT)	R081038-000-440
	R081039-000-440
	R081040-000-440
	R081041-000-440
	R081042-000-440
	R081310-000-440

The mentioned Dura-Life (Food Grade Compliant) filter bags consist of 3 components:

	Component Description	Material type / OML/SML* results
	(1) Food Grade Certified Cuff	100% polyester needlefelt  <i>below the treshold limit / below the treshold limit</i>
	(2) Food Grade Certified Media	mixture of polyester and bicomponent polyester fibres  <i>below the treshold limit / below the treshold limit</i>
	(3) Food Grade Certified Thread	polyester filament  <i>below the treshold limit / below the treshold limit</i>

\* OML/SML OML = Overall Migration Limit SML = Specific Migration Limit

This declaration is valid for the product(s) listed above and delivered by Donaldson Company.

In some cases, Donaldson relied upon information provided by suppliers, and has not independently verified such information.

Based upon migration tests performed at a 3rd party independent laboratories and/or certification received from component suppliers, Donaldson hereby confirms that the component materials of listed above components (therefore a full bag as well) meet the

referenced requirements for Food Contact use as detailed in the following EU regulations:

**REGULATION (EC) No 1935/2004** OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27th October 2004 on materials and articles intended to come in to contact with food.

**COMMISSION REGULATION (EU) No 10/2011** of 14th January 2011 on plastic materials and articles intended to come in to contact with food, and its subsequent amendment.

**COMMISSION REGULATION (EC) No 2023/2006** of 22nd December 2006 on good manufacturing practice for materials and articles intended to come in to contact with food.

**US FDA REGULATION** 21 CFR paragraphs 170-199  
21CFR §177-1630 (fluorocarbon resins)

**Suggested conditions of use:**

- The filter media is suitable for use in dedusting filters for dry (including fat-containing) foods and food additives.
- The continuous operating temperature may not exceed 150°C.
- Originally packed product(s) should be stored in a room temperature dry environment condition.
- The filter media is for applications where coincidental contact is expected. The migration values were determined at a surface to volume ratio of 6 dm<sup>2</sup>/kg.

**Further information:**

The filter media has no functional barrier.

The filter media contains no dual use substances.

**Nota Bene:**

Many factors beyond Donaldson's control can affect the use and performance of Donaldson products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the Donaldson products to ensure that these products and components are suitable for use in their specific food application, especially in case of applications where food contact conditions deviate from those stated in the applicable regulations or the manufacturer's instructions and operations manual.
